

CARDLOCK VENDING

CV-CM-Encoder

Cardlock Vending is pleased to offer a reliable magnetic stripe card encoder. This is the same machine we use for in-house card encoding.

Used for both high and low coercivity type cards, this motorized unit measures 11" long x 4.6" wide x 4.5" high. It's driven by your PC, and comes complete with RS-232C interface, serial cables, a built-in 115v power supply and operating software.
